EDUCATION

- Bachelor of computer application
calicut university
2020-2023
- Higher Secondary
Ghss koduvayur
2018-2020

SKILLS

1. MongoDB
2. Express.js
3. Angular
4. React.js
5. Node.js
6. Javascript
7. Html/Css
8. Git&Github
9. RESTful APIs

ABOUT ME

Dedicated MERN stack developer with [6 months] of hands-on experience in designing and implementing robust web applications. Proficient in MongoDB, Express.js, Angular, React, and Node.js, I am seeking a challenging position where I can leverage my expertise to contribute to the development of scalable and high-performance software solutions. Known for collaborating effectively with cross-functional teams, I am eager to apply my technical skills and passion for innovation in a dynamic and growth-oriented environment.

WORK EXPERIENCE

- June 2023- Present
Luminar Technolab Kochi
Mern stack developer internship
 - Collaborated with the development team to contribute to the design, development, and implementation of web applications using the MERN stack.
 - Gained practical experience in MongoDB by designing and implementing database schemas, ensuring efficient data storage and retrieval.
 - Worked with Express.js to develop RESTful APIs, enhancing the backend functionality of the applications..
 - Utilized React to create interactive and user-friendly front-end components, improving the overall user experience.
 - Developed server-side logic using Node.js, ensuring seamless communication between the frontend and backend components.
 - Continuously expanded knowledge of emerging technologies and best practices in web development through self-learning and participation in team knowledge-sharing sessions.
- 2021-2022
Softronic Palakkad
Php internship
 - Collaborated with the development team to create and maintain dynamic web applications using PHP, MySQL, and JavaScript.
 - Assisted in the design and implementation of a user authentication system, enhancing the security of client websites.
 - Participated in the development of a content management system (CMS) using PHP frameworks, allowing for easy content updates and management.
 - Demonstrated adaptability and a quick learning curve by successfully implementing new features and technologies into ongoing projects.

PROJECT

React video uploader app

Developed a feature-rich React video uploader application facilitating seamless video upload, storage, and management. The app includes user authentication, progress tracking, and a responsive user interface for an enhanced user experience. Using JSON server for back-end

Key Contributions: File Upload Component, Responsive Design, Error Handling, Create&Delete collection, Access Watch history and delete
